YOU CAN
GO BLUE!

Updated April 2017
Many students and their families across our state are concerned about the rising cost of college. Before you make any major decisions about your future, we want to make sure that you know about your many options at the University of Michigan.

U-M’s mission as a public university remains truer than ever. We are working hard to keep higher education affordable and accessible — especially for residents of the State of Michigan.

Making Michigan an Affordable Choice
For many families, the published price of tuition is not the cost that they will be expected to pay. U-M is the only public university in Michigan to cover 100 percent of demonstrated financial need of in-state students.* Our high student retention and graduation rates — the best among all Michigan colleges and universities — makes U-M an exceptional value for these families.

* You must apply by the deadline and accept all of the aid that we offer. Demonstrated financial need is determined after you fill out the Free Application for Federal Student Aid (FAFSA) and the CSS Financial Aid PROFILE.
COMMON MYTHS ABOUT U-M’S AFFORDABILITY

Figuring out how to pay for college can be confusing and intimidating for students and their families. Below we directly address some common misconceptions about U-M’s affordability and financial aid to help clarify what funding opportunities are available for in-state students.

**FACT:**

23.6% of in-state freshmen come from families that earn LESS THAN $60,000/YEAR

(And many of them also get additional scholarship aid.)

Myth 4: Most middle-class families do not qualify for need-based aid.

**FACT:**

On average, students from a family with:

- A household income between $80,000–$100,000 receive U-M grants that cover 81% of their tuition

(And many of them also get additional scholarship aid.)

Myth 5: If I use financial aid, I will graduate with major debt.

**FACT:**

U-M has increased grant contributions each year, helping reduce the need for students to borrow.
